MEMORANDUM

TO: **Year 2 BN Students (Class 2023)**

RE: **Fall Semester Registration**

.....

IMPORTANT REMINDER – DUE TO COVID-19: As per the email from Anne Marie Tracey, May 19th, all nursing theory courses will be taught remotely for the fall 2020 semester.

Clinical courses will proceed when the health authorities give permission to return to clinical.

Lab courses/lab components of courses will be offered remotely in the fall semester to the extent possible. The exception are labs or parts of a lab that cannot be done effectively unless on site, **and** need to occur before or concurrent with a clinical course.

We recognize that the required changes in the offering of the program may not be feasible for some. If you would prefer to delay taking your fall 2020 clinical or nursing theory courses, please notify the Associate Director to discuss. Please be aware that this will result in a delay in completion of the Program.

REGISTRATION

Registration for fall begins July 14, 2020. Attached are two class schedules for the Fall Semester – Thursday/Friday clinical.

You will be asked to provide a **photocopy** of your certificate prior to commencement of clinical practice. **Please monitor service provider (Red Cross, Heart & Stroke, St. John Ambulance etc.) availability and when session are available, please schedule your re-certification if expired.**
